

# Immunity IV Kit

## Overview

Designed to help your immune system, prevent illnesses, and make you feel better faster after getting sick, this IV kit includes ten treatments of premium-quality compounds that can help improve immunity and promote optimal wellness.

## Kit Contents

- **Ascorbic Acid 30mL**
  - Ascorbic acid can act as an antioxidant that may help protect cells from free-radical damage, absorb iron, create collagen and boost immunity.
- **Olympia's Vita Complex 30mL**
  - This mixture is packed with B-complex vitamins, which may help keep skin and blood cells healthy and convert nutrients into energy.
- **Zinc Sulfate 10mL**
  - Zinc Sulfate is used to help reduce the duration of illnesses, prevent infection and speed up the body's healing process.

## Dosage, Concentration, Route of Administration

Dosage: Olympia recommends using between 1 and 3mLs for Ascorbic Acid and Vita Complex. Do not exceed 1mL of Zinc Sulfate per treatment in a 1L infusion bag. Always seek advice from a licensed physician, medical director, or other healthcare provider before starting treatment.

Route of Administration: IV

## Storage

Store at controlled room temperature. Protect from light.
